

## MSA315

welder compact style MIG

- compact structure
- easy operation
- high-performance machine, energy-saving, little spatter, low noise
- high quality torch
- MIG and MAG welding
- welding current and voltage digital display
- continuous welding current adjustment
- suitable for spot, continuous and space welding
- MIG/MAG/CO2 with spot function
- 4 rolls wire feeder
- suitable for sheet thickness up to 0,5mm

**included in delivery:** pressure relief, extensive spare parts box, welding screen, welding spray

# MSA315

welder compact style MIG

## technical details

total dimensions in mm	810x455x720
welding wire thickness in mm	0,8/1/1,2
input power capacity in KVA	14.2
welding cable length in m	3
net weight in kg	105
packaging height in mm	830
packaging length in mm	970

power levels	21
input voltage	3x400V 50Hz
welding current range in A	50-315
duty cycle in %	40-100
gross weight in kg	121,800
packaging width in mm	510
EAN code	9120039904672
